

# Label Holders

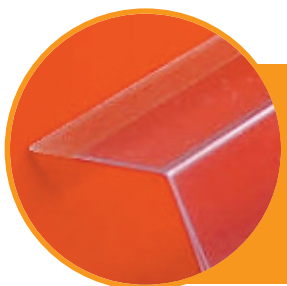

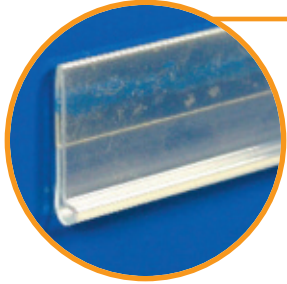

**We can provide a complete range of label holders to suit any application.**

Storing goods in locations which continually change to suit the size of items or the type of product can make for complications in stock control. Plastic label holders or ticket holders help to remove the potential for mistakes with a flexible way of accurately identifying locations without the ongoing expense and inconvenience of selfadhesive labels.

Only the label holder or ticket holder is attached to the shelf which means the label is free to be removed or moved along the strip when a product code is changed or there is a change in carton sizes. Labels or tickets can be easily removed or replaced in line with the product stored.

Adhesives are the long-term option of fixing label holders or ticket holders and offer more stability in environments where holders or strips are changed regularly or may be knocked by cartons or pallets. Magnetic strips are also popular since the label holder or ticket strip can be adjusted quickly with easier application and removal than adhesives.

We produce tickets and labels which can be white or multicoloured, with numeric, alpha and/ or alphanumeric data printed. Shelf label holders or ticket strips come in various sizes from 26mm to 70mm.

ASG Services - a trading division of Westbrook Industrial Limited

“ Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, by offering clients a quality-driven, total solution via multi-channel procurement methods. ”

Tony Gresty | Managing Director – ASG Services

# Labelling and Safety Solutions

## About us

At ASG Services we have gained an excellent reputation for providing the most appropriate labelling and safety products to meet the specific requirements of our customers.

By providing a range of products in each of our specialist fields we are able to provide the optimum solution for every client from one source.

From our beginning over fifteen years ago we have been constantly developing our products and services.

We have a considerable depth of knowledge in all labelling and industrial floor marking and painting systems specific to the warehousing and distribution industries.

Our success in developing line marking to provide personnel segregation systems, is complemented by our other safety solutions which include internal security mesh, safety signage, plus barrier and column protection.

Our unique product and service offering is very attractive to companies looking to satisfy all their needs from a single source.
