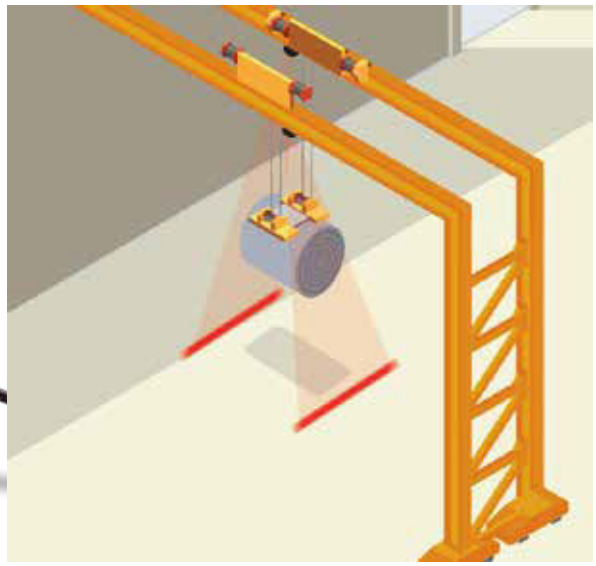
Crane Hazard Illumination and Projection Datasheet

For information about the other products in the SafetyCast product family visit, Order Online Now or Request a quote from ASG Services who have been appointed the exclusive UK distributor of Laserglow Technologies the leading virtual sign specialists:



Overview:

SafetyCast™ Systems are the ideal solution for adding bright, visual warnings to overhead crane in areas where conventional wall and floor markings are easily missed or obstructed. Floor spot projections are perfect for heavy traffic areas that do not show markings in certain lighting conditions or due to wear. A line or spot projection outlines a safety warning around heavy equipment and machinery where additional safety is required.

Key Features:

- Easy to install on any overhead crane
- Adjustable mounting bracket allows for easy positioning of the beam
- High visibility illuminated projections provide the pedestrian with clear knowledge of their proximity to the overhead load
- Weatherproof and ideal for indoor/outdoor use
- Run off 12-48VDC
- Long operating life of 30,000+ hrs

Specifications:

Projection type:	Line
Color:	Blue / Red
Power:	72W (Red) / 120W (Blue)
Projection Fan Angle:	50º
IP rating:	65
Standard Warranty:	12 months
Dimensions:	14.9 in x 7.9 in x 7.9 in (38 x 20 x 20 cm)
Weight:	2.9 Kg (6.4 lb)
Operating Temperature:	0° to 120°F (-20° to 50°C)
Working Lifetime:	30,000+ Hours
Input Voltage:	12-48VDC
Package Includes:	LED projector and adjustable mounting bracket
