

PROTECTION | TRAFFIC SAFETY
Clatter Bars

Increase your safety and control within restricted height areas by suspending a clatter bar below your vulnerable door openings, mezzanine floor perimeters or other controlled zones to ensure forklift mast heights are lowered to a safe level for entry and exit.

Modular design

Can be used extensively in conjunction with door goalpost systems and under mezzanine floors. By outfitting the entire mezzanine perimeter you will help your operators observe the safety hazard/risk. Cold store compatible, they offer a temperature range of -40° to +80° C. Suspended using a steel chain, installation is a simple and low-cost process.

Highly visible height warning

Clatter Bars are available in a range of vibrant colours and provide a simple, yet effective visible early warning to lift truck operators of height restrictions. The 'clatter' noise acts as a secondary audible alert of height restricted areas.

Made from high density polyethylene

Made from high performance polymer technology, we offer 1250mm and 2500mm lengths, with a diameter of 110mm with black end caps and suspending chains.

Additional options

Reflectors

Diamond grade hi-vis reflectors can be added for external locations.

Black tape Indicators

Improved visual safety feature, (see image).

Signage

Custom signage to advise actual heights of the restricted areas.

“ Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, by offering clients a quality-driven, total solution via multi-channel procurement methods. ”

Tony Gresty | Managing Director – ASG Services

Labelling and Integrated Safety Solutions

About us

At ASG Services we offer an integrated solution to meet the specific labelling and safety product requirements of our customers.

We have earned an excellent reputation by providing a range of products in each of our specialist fields. This means we can provide the best solution for every client, with everything available from one source.

The benefits of using one company means greater traceability, more efficient use of resource, and of course, savings on time and money.

So, whether you need labelling, rack protection or machine guarding, internal line marking or safety signage, aisle markers or steel partitioning systems, hanging signs and safety netting, we have the right solution for you.

With more than 25 years' experience we have an unrivalled knowledge of all labelling, industrial floor marking and painting systems specific to the warehousing, distribution and manufacturing industries.

We also offer full back-up, with on-site project management to help ensure a fully integrated service.

There is no other company in the UK that can efficiently deliver fully integrated labelling & safety solutions like ASG Services.
