

RISK REDUCTION SYSTEM

ToppleNets™

SCAN ME

Fully adjustable and bespoke, our ToppleNets™ solutions are the best risk reduction system on the market for safely containing and restraining unracked loads and ground-stored pallets. The strong 5mm gauge netting forms a protective barrier that secures loads in the event of accidental impacts or toppling, helping protect personnel and stock in areas where free-standing products are block-stacked and where awkward items such as kegs are capable of toppling/becoming dislodged.

Featuring Dynamic Locking Gripple technology

There is more to a safety netting system than just the net! All our ToppleNets™ feature the tried-and-tested Gripple® D6 Dynamic Lockable Plus. This proven device secures the wire fixing/loading cable between fixed points and will not fail under tension caused by a dynamic load. It has been independently tested and certified by Lloyds British.

Made bespoke to suit your exacting safety requirements

Keep block-stacked goods safe and separate from defined aisles and large, high traffic areas both inside the warehouse and out. We fabricate posts that frame and firmly anchor ToppleNets™ in small to mid-size areas to your specification, or they can be attached to ceilings to protect longer/higher areas and walkways.

Robust, long-lasting and good looking protection

Each ToppleNets™ solution features our 5mm gauge netting that is proven to contain and restrain pallet loads up to 1,000kg and exclusively used in our RackNets™ solution. The inherent elasticity of the netting helps to safely decelerate any load pushed against it. Rugged and made to last, our netting requires minimal maintenance and is available in a range of colours for coordination with any warehouse.

Blockstack Collapse

Provides important and potentially life-saving safety where blockstacking is used. Prevent damage, save lives and ensure unhindered operations.

Keg Storage

Designed to safely restrain falling kegs – where kegs are stacked high there is always the potential for the containers to become dislodged and fall.

Aisles & Walkways

Help to ensure clearly defined aisles and walkways within busy footfall and high traffic MHE areas. Provides a safer working environment by protecting pedestrians and operators alike from falling stock.

Bespoke requirements

Contact us today, we have adaptable ToppleNets™ solutions that will suit your requirements.

Please note that the net safety system we have designed is a risk reduction system and cannot be tested for the multiple impacts that can occur in the various conditions that can be created. We cannot therefore guarantee that the system will fully stop products in all situations. For safety without compromise, it is vitally important that any solution is always used in conjunction with a suitable Safe System of Work.

ASG Services - a trading division of Westbrook Industrial Limited

“ Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, by offering clients a quality-driven, total solution via multi-channel procurement methods. ”

Tony Gresty | Managing Director – ASG Services

Labelling and Integrated Safety Solutions

About us

At ASG Services we offer an integrated solution to meet the specific labelling and safety product requirements of our customers.

We have earned an excellent reputation by providing a range of products in each of our specialist fields. This means we can provide the best solution for every client, with everything available from one source.

The benefits of using one company means greater traceability, more efficient use of resource, and of course, savings on time and money.

So, whether you need labelling, rack protection or machine guarding, internal line marking or safety signage, aisle markers or steel partitioning systems, hanging signs and safety netting, we have the right solution for you.

With more than 26 years' experience we have an unrivalled knowledge of all labelling, industrial floor marking and painting systems specific to the warehousing, distribution and manufacturing industries.

We also offer full back-up, with on-site project management to help ensure a fully integrated service.

There is no other company in the UK that can efficiently deliver fully integrated labelling & safety solutions like ASG Services.
