

## IDENTIFICATION SOLUTIONS

# SilverBack™ Location Labels

ASG Services' high-quality and cost-effective Silverback Polyethylene location labels are designed to cover a wide range of warehouse applications. They are especially suitable for shelf/ beam location labelling. The SilverBack™ location labels are ideal for barcode scanning and location and check digit information. The laser print process used in the production of these labels gives outstanding verification rates.

- Tough Polyethylene base material and laminate** – Stronger than paper labels, the polyethylene base eliminates distortion, while the permanent adhesive provides a strong and long-lasting bond improving the lifecycle of the label.

- Labels can also be laminated for longer life** – Scanning guaranteed for life and no show-through when applying over existing labels.

- Excellent barcode quality** – The hot fusion laser printing creates a high resolution, scratch resistant print for easy-to-read barcode information, enabling trouble-free scanning, while diagonal barcodes can be specified for increased scanning accuracy.

- Versatility as standard** – Available in standard or bespoke sizes, labels can be specified in a range of colours to suit warehouse themes. Upgrades include magnetic backing for easy adhesion to steel racking and other surfaces.

- Full installation service available** – Carried out by our professional fitters to customer specification, installation can be quickly and easily completed in any warehouse environment – wet or dry – as well as cold stores. Labels are fitted within a minimum application temperature of 0 to +5°C, while operational temperatures range from -30°C to +100°C.

### SilverBack™ Polyethylene Rack Labels

Our pallet racking labels help you identify your vertical and upright rack locations in warehouses quickly and easily. Our team of experts can assist you in finding the best pallet racking label solution to optimise your warehouse performance.

### SilverBack™ Polyethylene Shelf Labels

Our shelf labels have been specifically designed for long span and small parts shelving – whatever size and specification you require, we have the label that will do the job.

SCAN ME

“ Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, by offering clients a quality-driven, total solution via multi-channel procurement methods. ”

Tony Gresty | Managing Director – ASG Services

# Labelling and Integrated Safety Solutions

## About us

At ASG Services we offer an integrated solution to meet the specific labelling and safety product requirements of our customers.

We have earned an excellent reputation by providing a range of products in each of our specialist fields. This means we can provide the best solution for every client, with everything available from one source.

The benefits of using one company means greater traceability, more efficient use of resource, and of course, savings on time and money.

So, whether you need labelling, rack protection or machine guarding, internal line marking or safety signage, aisle markers or steel partitioning systems, hanging signs and safety netting, we have the right solution for you.

With more than 26 years' experience we have an unrivalled knowledge of all labelling, industrial floor marking and painting systems specific to the warehousing, distribution and manufacturing industries.

We also offer full back-up, with on-site project management to help ensure a fully integrated service.

There is no other company in the UK that can efficiently deliver fully integrated labelling & safety solutions like ASG Services.
