

## IDENTIFICATION SOLUTIONS

# SilverBack™ Racking Labels

1

**SilverBack™ is a new label solution which can be adhered in all warehouse temperatures.**

Label solutions can be varied in both man-down and man-up fork lift pallet racking applications. We aim to design the most appropriate and cost-effective application.

### 1. Split Beam Label

To identify a location on the ground and a pallet on the first beam level.

2

### 2. Upper Beam Label

To identify a location on beams above the split beam label location. On man-up applications where the operator is closer to the label these can be smaller than in man down applications.

### 3. Upright Label

Applied to the racking upright and used in man-down applications to enable the operator to scan upper locations at low level.

### 4. Stepped Beam Label

Also used in man-down applications but applied to the beam to enable the operator to scan upper locations at low level.

3

### 5. Level Indicator

A simple but cost-effective way of identifying a beam level in man-down applications.

A coloured label is applied to the beam and matches the location colour shown on the upright or stepped beam label.

SCAN ME

“ Our vision is to be the supplier of choice for warehouse and industrial identification, safety systems and associated products, by offering clients a quality-driven, total solution via multi-channel procurement methods. ”

Tony Gresty | Managing Director – ASG Services

# Labelling and Integrated Safety Solutions

## About us

At ASG Services we offer an integrated solution to meet the specific labelling and safety product requirements of our customers.

We have earned an excellent reputation by providing a range of products in each of our specialist fields. This means we can provide the best solution for every client, with everything available from one source.

The benefits of using one company means greater traceability, more efficient use of resource, and of course, savings on time and money.

So, whether you need labelling, rack protection or machine guarding, internal line marking or safety signage, aisle markers or steel partitioning systems, hanging signs and safety netting, we have the right solution for you.

With more than 26 years' experience we have an unrivalled knowledge of all labelling, industrial floor marking and painting systems specific to the warehousing, distribution and manufacturing industries.

We also offer full back-up, with on-site project management to help ensure a fully integrated service.

There is no other company in the UK that can efficiently deliver fully integrated labelling & safety solutions like ASG Services.
